PERSONAL PROJECTS

Public Hazards - pH

- Objective: To create a fully functional mobile application for tracking road hazards like black ice, fallen tree, blocked road due to snowstorm, and many more
- This application allowed users to capture images of mentioned road hazards and use to alert other users present in the vicinity of the hazards
- We also implements a heat map that can show areas with a high number of hazards, so that people and public authorities can take cautious route.

Currency Calculator

- Objective : To develop a basic online iOS application.
- A major project for iOS in Semester 1 at Lambton College. Swift and Xcode storyboards were used to develop this project.

Personal Blog

- To demonstrate the use of HTML, CSS, Bootstrap, JavaScript, node.js, and other front-end technologies to create a simple and responsive website.
- This website uses EJS, Bootstrap, jQuery and CSS for the front end of the website and MongoDB is used to provide persistent data storage with Express.js for backend support .

CERTIFICATES

ISTQB Foundation Level Certification

COVER LETTER

Dear Hiring team,

I am submitting my resume for the Internship position in your Company. I strongly feel that my skills and experience outlined in my enclosed resume will be a worthy asset to the organization.

I hold a B.tech degree in InformationTechnology and Engineering and I am currently pursuing a Post Graduate diploma in Mobile Applications Design and Development from one of the reputed colleges of Canada. Previously I have worked in the IT industry where I've worked on several projects. Such as: Redesigning of the company website and internal employee portal using Web development technologies (HTML, CSS, Bootstrap, JavaScript and React) , Assisted the development team in creating the unit test cases and supporting the QA team by analyzing the test scenario and test results, e.t.c.

With my recent learnings, I have developed an immense interest in websites and mobile applications. I want to learn more and build my career around technologies.

In addition to learning about new technologies , I have keen interest in swimming and traveling . I believe that working with you will help me to achieve my professional and personal goals.

With my education, skills and work experience, I believe I would make an excellent addition to your team. This internship will help me to solve real life problem statements using my technical skills and help me further refine my design and development skills.

Please feel free to contact me on **devesh0477@gmail.com** or on **(437)-247-5398** as per your convenience. I look forward to hearing from you. Have a great day.

Sincerely,

Devesh Verma

CESTAR COLLEGE
of Business, Health & Technology

Date Issued: September 1, 2020

Student ID: c0758340
Student Name: Devesh Verma
Program of Study: Mobile Application Design & Development (MADT) (Toronto Campus)

Dear Co-op Employer:

This letter confirms that the bearer has achieved no less than a 2.8 CGPA and is therefore *officially eligible* for the Winter 2021 Co-op Work Term. This student is aware that they must work a minimum of 30 hours per week and complete a minimum of 336 Co-op work hours between January 4 and April 30, 2021. Note that as a recognized public institution and program all *paid work* terms qualify the employer to receive the *Ontario Co-op Tax Credit*, and a confirmation letter will be sent to you verifying this upon completion of every paid work term. Our Co-op team looks forward to working with you.

Sincerely,

Michael Vourakes, MBA
Director
